

## **CNME Report – July 2012**

Enrolments from 54 couples have been received so far this year. After successful recruiting and training of presenters, the Love is a Decision programme is now available in the three pastoral areas of Hawkes Bay, Manawatu/Tararua (Palmerston North) and Taranaki. The next courses are scheduled for September/October in each of these areas. Training of new Commit facilitator's is needed for the Palmerston North area.

It has been highlighted again recently the real value of the Commit inventory process. Giving the opportunity for a couple to reflect on their unique relationship and identifying any specific areas for growth provides them with a greater awareness and openness to the content of the skills enhancement material.

Pastoral area team meetings are planned before the end of the year, were we will be discussing the area of 'past relationships'.
